## COMMENTS AND OPINIONS

How should we interpret estimates of individual repeatability?

Alastair J. Wilson

4

---

## LETTERS

Ancient genomic variation underlies repeated ecological adaptation in young stickleback populations

Thomas C. Nelson and William A. Cresko

9

Genomic associations with bill length and disease reveal drift and selection across island bird populations

Claire Armstrong, David S. Richardson, Helen Hipperson, Gavin J. Horsburgh, Clemens Küpper, Lawrence Percival-Alwyn, Matt Clark, Terry Burke, and Lewis G. Spurgin

22

Sexual competition and the evolution of condition-dependent ageing

Amy K. Hooper, Jussi Lehtonen, Lisa E. Schwanz, and Russell Bonduriansky

37

## Editorial Board

### Editor in Chief

Jon Slate  
University of Sheffield, UK  
j.slate@sheffield.ac.uk

### Managing Editor

Shantaya Brinson  
sbrinson@wiley.com

### Social Media & Communications Editor

Nicola Hemmings  
University of Sheffield, UK  
n.hemmings@sheffield.ac.uk

### Associate Editors

#### Lindell Bromham

Australian National University, Australia  
lindell.bromham@anu.edu.au

#### Anne Charmantier

CNRS, Montpellier, France  
anne.charmantier@cefe.cnrs.fr

#### Andy Gardner

University of St. Andrews, UK  
mailto:andy.gardner@st-andrews.ac.uk

#### Zach Gompert

Utah State University, USA  
zach.gompert@usu.edu

#### Anjali Goswami

University College London, UK  
a.goswami@ucl.ac.uk

#### Katrina Lythgoe

University of Oxford, UK  
katrina.lythgoe@zoo.ox.ac.uk

#### Rhonda Snook

University of Sheffield, UK  
r.snook@sheffield.ac.uk

#### Stephen Wright

University of Toronto, Canada  
stephen.wright@utoronto.ca

### Aims and Scope

*Evolution Letters* publishes cutting-edge new research in all areas of Evolutionary Biology. Papers should demand rapid publication because they substantially advance the field, are of outstanding clarity and originality, or are of broad interest. Papers that introduce new analytical or methodological frameworks that are likely to be highly influential will also be considered. Opinion and commentary articles on new developments or emerging themes are also encouraged. Traditional reviews will not be considered, as plenty of appropriate forums for these already exist. The Editor-in-Chief and Editorial Board welcome enquiries about other forms of article. *Evolution Letters* is jointly owned by the European Society of Evolutionary Biology (ESEB) and the Society for the Study of Evolution (SSE). Profits from the journal are invested back into the two societies. The journal is online only and entirely open access. The journal has a flexible approach to the format of manuscripts on submission, and will only ask authors to adhere to a house style (see Instructions for Authors) once the manuscript is accepted for publication.

### Open Access and Copyright

All articles published by *Evolution Letters* are fully open access: immediately freely available to read, download and share. All articles are published under the terms of the Creative Commons Attribution License which permits use, distribution and reproduction in any medium, provided the original work is properly cited and allows the commercial use of published articles. Copyright on any research article in a journal published by *Evolution Letters* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher. Authors also grant any third party the right to use the article freely as long as its integrity is maintained and its original authors, citation details and publisher are identified. Further information about open access license and copyright can be found at <http://www.wileyopenaccess.com/details/content/12f25db4c87/Copyright%E2%80%9393License.html>
